

::: How to assemble Yeti 5 Dyneema Riser

- Disassemble each part

::: How to assemble Yeti 5 Dyneema Riser

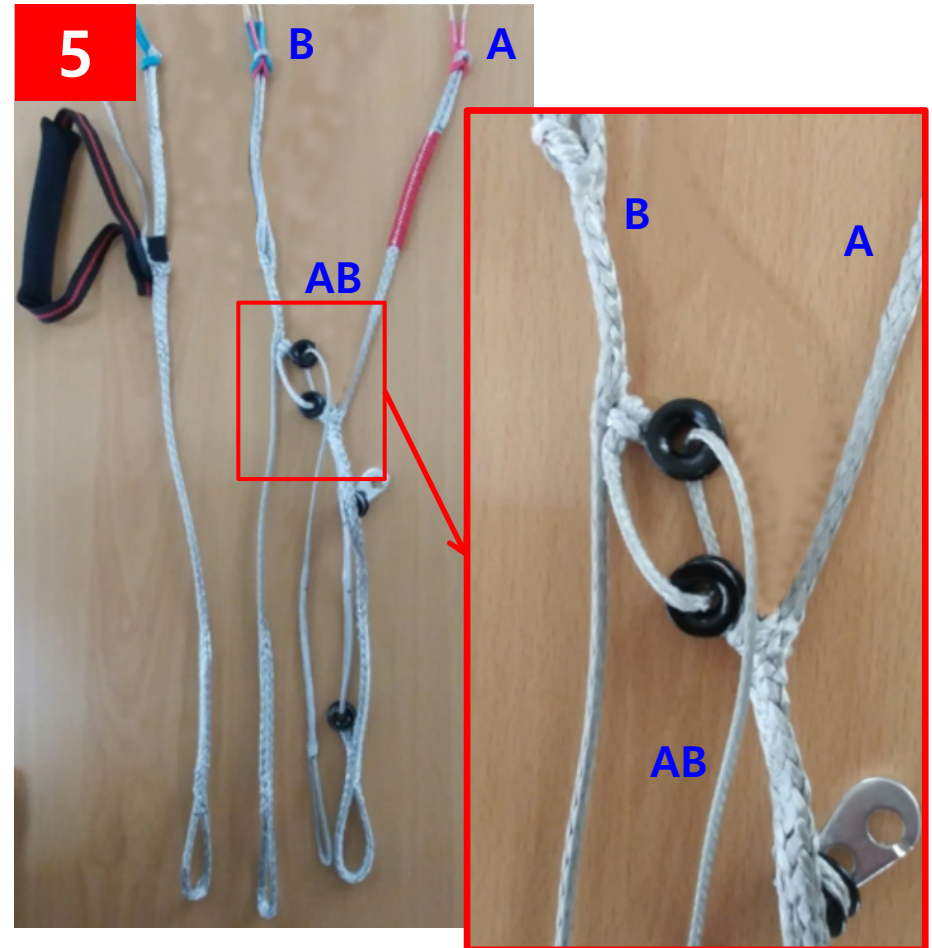

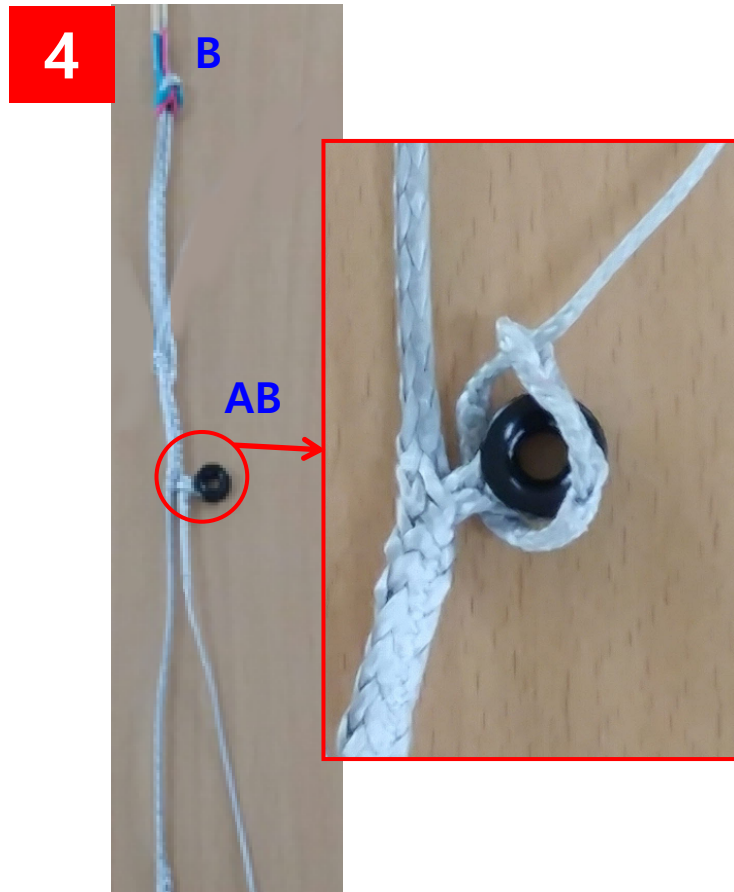

- Assemble Main A1,2,3, Main B1,2,3, ST and Main C1,2,3 on each riser

- Assembly method: figure of 8 knot

::: How to assemble Yeti 5 Dyneema Riser

- Assemble Riser AB on Riser B and A

::: How to assemble Yeti 5 Dyneema Riser

- Cover Main Loop

6

Note:

In our experience, the Edelrid 8000-U lines are dimensionally stable. However, if the glider needs a retrimming, we suggest to make cascade loops on the upper line cascades.
